

PROFILE

After a brief stint designing websites, I side-stepped into the interior designer sector and haven't looked back since. From humble beginnings designing kitchens for a bespoke furniture company in Cape Town, I have qualified as an Interior Designer and gained over a decade of experience within the interior design sector.

Define Space Ltd - Define Space was born after seeing a gap in the market for high quality architectural services for small works. My experience from interior design greatly influences my ethos and I offer creative solutions that are sympathetic to the interior spaces.

INTERESTS

I have tried my hand in most sports but I have a particularly keen interest in Rugby and Cricket, albeit from the armchair.

These days, my free time is usually spent upcycling old discarded pieces of wood into obscure furniture that friends and family are polite enough to appreciate.

PETER WILLIS

DIRECTOR

EXPERIENCE

2015 - Present	Define Space Ltd	Director
2012 - 2015	John Lewis & Partners	Designer
